3. Mar 2010-Dec 2012, HCL Technologies, Bangalore, India. *Designation-* Lead Developer
4. Apr 2006-Feb 2010, Mahindra Satyam, Bangalore, India. *Designation -* Software Engineer

## Product/Applications worked on

**For Organization: Deccan Info Systems, Bangalore, India**

Project Title: **Altea Inventory Schedules**

Period: **Feb 2018 – till date**

Skill Set: **React 16.X, Redux, HTML5, CSS3, git, AWS, JIRA, Jenkins, Scrum**

### **Project Description:**

Altea Inventory suite is a highly available, scalable and distributed web application to access Amadeus inventory services and to manage flight seating and schedules. INV schedules cater ~100 airlines and ~1800 travel agencies across the globe. It is a highly configurable application that helps airlines to perform flight creation, schedule management, ticket booking, ground handling etc... It uses peaked architecture to cater different airlines globally.

### **Role and Responsibilities:**

- Creating reusable components for web application using React, Redux, html5, CSS3
- Leading a scrum team of 9 engineers, planning deliveries and product backlog
- Complete ownership of end-to-end product backlog, feature development and product maintenance
- Working cautiously to improve application performance using lazy loading, API call management
- Working closely with DevOps team to support them on CI CD process to speed up deliveries
- Planning team activities for sprint and leading Sprint Demos, retrospection, daily standup
- Interacting with counterparts from Sydney, Nice and Boston teams
- Working closely with QA, Product owner, Sales, Level3 teams and other stake holders

**For Organization: CGI, Bangalore, India**

Project Title: **Cisco Packet Tracer (Cisco INC)**

Period: **Feb 2013 – Oct 2015**

Skill Set: **JavaScript, HTML, CSS, SQL Server, Linux shell Scripting.**

**For Organization: HCL, Bangalore, India**

Project Title: **Sony Bravia, Period: Mar 2010 – Dec 2012,**

Client: **Sony, Japan**

Skill Set: **JavaScript, Python, SQL Server, Linux shell Scripting.**

**For Organization: Mahindra Satyam, Bangalore, India**

Project Title: **CA Risk-minder (CA Technologies) Period: Apr 2006 – Feb 2010**

Client: **Bank of Baroda, HDFC, Icici, Amex**

Skill Set: **C++, Linux, Shell scripting**
